Please review the following requirements for the tree removal project:

- Trees must be removed and cut flush to the ground as low as possible.
- All debris must be removed and disposed of by the contractor at their own expense.
- Yards and streets must be left clean before leaving the job site.
- The contractor is responsible for repairing any damage to streets, turf, or private property.
- The contractor is responsible for coordinating any necessary road closures or OPPD assistance.
- All work must be completed no later than December 15, 2026.

Please let me know if you have any questions.
